

How to **hoopla** on chromecast

Cast video from Chromecast-enabled apps to your TV

Casting to your TV is a simple way to enjoy your favorite apps optimized for the big screen. You can even use your mobile device or tablet as a remote and control everything from playback to volume.

Before you begin casting

1. Connect your mobile device, tablet, or computer to a Wi-Fi network.
2. The mobile device, tablet, or computer you are using to cast must be on the same Wi-Fi network as your Chromecast or TV with Chromecast built in.
3. You must be running the latest version of the Chromecast-enabled app. You can always double check that you are on the latest version by visiting the Google Play Store or Apple App Store and checking for any app updates.

Cast from Chromecast-enabled apps to your TV

1. Make sure the mobile device, tablet, or computer you are using to cast is on the same Wi-Fi network as your Chromecast or TV with Chromecast built in.
2. Open a Chromecast-enabled app.
3. Tap the Cast button. Note: The Cast button isn't located in the same place on all Chromecast-enabled apps.
4. Tap the device you'd like to cast to.
5. When you're connected, the Cast button will change color, letting you know you're connected.
6. You can now cast videos, movies, and TV shows directly to your TV.
7. To stop casting, tap the Cast button and then Disconnect.

What versions are supported?

We currently support casting from Android devices to 1st and 2nd generation Chromecasts. We also now support the Chromecast Ultra!
